

Holidays Web API

I provided a partial code for HTML and JavaScript. You need to fill in >>>>> with your own code.

holidays.html

holidays.js

holidays.css

```
body {  
    margin: 50px;  
}  
  
#inputs {  
    display:  
        flex;  
    justify-content: center;  
    margin: 20px;  
}  
  
#inputs div {  
    margin-left:  
        25px;  
}
```

```
table {
    border-collapse: collapse;
    width: 100%;
    justify-self: center;
}

table,
th,
td {
    border: 1px solid lightgray;
}

th {
    text-align: left;
    padding: 5px;
}

td {
    padding: 5px;
}

#table-body tr:nth-child(even)
{
    background-color:
    lightgrey;
}
```
